

FULLY CONCEALED HINGES

“SOSS” fully concealed, morticed hinges. For applications where for reason of security, appearance, safety or hygiene the knuckle of the hinge should not be visible.

Typical applications: fine quality cabinet making, counter flaps, security doors and squash court doors.

Hot brass stamped body with laminated hinge plates, blued steel wearing plates added to the two largest sizes.

Hinge allows 180mm degree movement, (subject to clearances between body sections)

Code:	Face length	Face width	Depth	Min door thickness	Steel shims
