## KEY CABINETS

Wall mounted, digital key "Safe". Designed to provide a more secure, digitally controlled, access point for keys or small items. Ideal for situations where it is desirable to give controlled access, to small numbers of code holders, using existing key locks.

Sheltered housing

Plant rooms

Holiday lettings.

Heavy cast metal body, finished in black and grey power coating, the four dial digital combination lock on the front flap can be easily reset by end users. A sliding guard can be raised to obscure the digital tumblers when not in use.
