

SPECIAL FUNCTION CYLINDER RIM LOCKS

Cylinder rim, roller bolt, night latch. Designed to prevent the risk of tenants locking themselves out of high rise flats or residential units.

When unlocked the door is held in the closed position by the sprung loaded roller catch, the door may be opened by a simple push/pull action. To lock the door the bolt has to be thrown by use of the key outside or turn handle inside. When locked the key will always operate from outside.

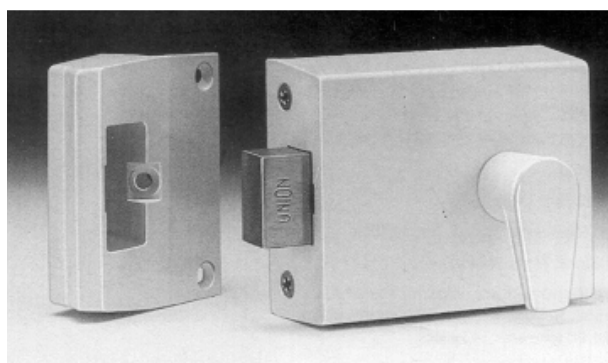

Suitable for left or right handed, inward opening doors 35-60mm thick. Concealed fixings. Supplied as standard with five pin cylinder and 2 keys. Also available master keyed or keyed alike. Case zinc die cast, epoxy powder coated white, cylinders either satin chrome or polished brass.

Code:	Finish : Body/cylinder	Dim A Backset	Dim B	Dim C	Dim D	Dim E	Dim F
